

ASSIGNMENT 02

October 9, 2024

1 Assignment 02

1.1 Date: 9th october

1.2 Submitted To: Sir Umer Haroon

1.3 Submitted By: Hasnain Saleem

1.3.1 QUESTION 01

```
[1]: import requests
from bs4 import BeautifulSoup

url = "http://brokenepicgames.onlinewebshop.net/"

# Accessing webpage
response = requests.get(url)

# Checking if website is accessible or not.
print(response.status_code)

# Parse the HTML content using BeautifulSoup
soup = BeautifulSoup(response.content, "html.parser")

# Find the game card div using class code
game = soup.find('div', class_="css-2mlzob")

# Extracting the title and price
title = game.find('div', class_="css-rgqwpc")
price = game.find('span', class_="css-12s1vua")

game_title = title.text.strip()
game_price = price.text.strip()

# Creating the formatted output
html_structure = f"""<div class="css-2mlzob">
    <div class="box">
        <span class="title"> {game_title} </span>
        <span class="price"> {game_price} </span>
```

```

        </div>
</div>""

print(html_structure)

print("\n\nWithout formatted output\n\n")
# Without formatted output
print(game)

```

200

```

<div class="css-2mlzob">
  <div class="box">
    <span class="title"> Summum Aeterna </span>
    <span class="price"> $9.29 </span>
  </div>
</div>

```

Without formatted output

```

<div class="css-2mlzob" data-component="DiscoverOfferCard">
<a aria-label="Hispanic + Latin American Heritage Creator Spotlight, 1 of 30,
